

Suzhou Four Seasons Hotel: HARMAN Professional Audio-Visual Solution, Creating a Perfect Audio-Visual Experience!

Released 2024/7/17 via China Social Media platform

The Suzhou Four Seasons Hotel grandly opened on December 12, 2023. The hotel is located on a private 9-hectare island on the Jinghui Lake, connected to the lakeshore by a dedicated bridge, making it a new sparkling landmark of Suzhou and the Yangtze River Delta region. It is committed to redefining the luxury urban resort experience and is just steps away from the vibrant Suzhou city center. The hotel skillfully integrates the local historical culture, with the public areas and villas blending in with the elegant Suzhou-style garden landscape. Winding lakeside and garden paths lead to tranquil seclusion, with the shimmering Jinghui Lake in full view, creating a rare oasis of serenity in the city.

HARMAN Professional provided a comprehensive professional audio-visual solution for the hotel, including BSS signal processing, JBL loudspeakers, and Crown amplification.

The hotel has 199 guestrooms and suites, as well as 11 standalone villas with private courtyards, providing guests with a comfortable and private stay experience. The comprehensive leisure and fitness facilities, and the serene and elegant spa center, offer customized wellness and rejuvenation programs to help guests achieve physical and mental harmony.
